CHILDREN TO BE CONFIRMED.

Twelve Hundred Will Become Members of Catholic Churches in Canton Next Week-Notorious Colored Woman is Ordered to Leave the City.

Canton, Oct. 14.—Judges Harter and Ambler are in Youngstown today attending a meeting of the judges of the Ninth judicial district. The dates for the holding of common pleas court in the nine counties that comprise this district will be decided upon for the year 1906.

Between eleven hundred and twelve hundred children of the Catholic faith will be confirmed as members of the four Cahtolic churches here during the coming week. Bishop Horstmann and a number of assistants will be present and the services will be imposing. It will require two days to perform this religious duty.

Luna Foster, the colored woman who has been conducting a place in East Seventh street, has been ordered to leave the city and close up her house. She was arrested on three charges filed by her sister, Etta Pleasure, who changed her with keeping an immora house, assault and battery and destruction of property. On the first charge she received a sentence from Mayor Smith of \$20 and costs and thirty days in the workhouse, but the workhouse sentence was suspended for twenty-five days, at the end of which time she must go. She was fined \$1 and costs on each of the other charges.

Landon Hart, of Minerva, pleaded guilty to being a suspicious person and was given a fine of \$20 and costs and twenty days in the workhouse. Mayor Smith asked him if it was true that he held up his father at the point of a revolver, but this he denied. When in Canton he puts in his time in low resorts. He claims to have a wife living

here. The Canton police are keeping tab on the running time of all city and interurban street cars of the Canton-Akron lines in order to see how close the comof its franchise.

Chairman Dick's open letters to John M. Henry Hall says in his Washington correspondence to the Pittsburg Times: The commerce of the United States has grown to wonderful proportions, but with the exception of the coastlargely carried in foreign ships. It is estimated that this country pays out from \$350,000 to \$500,000 a day to foreign ships for carrying our exports and imports. If, through the protective system, the United States has so fostered its manufacturing industries as to become the great rival of European countries, it would seem to be but a natural sequence that it should strive to so build up its merchant marine as to enable it to carry the foreign commerce. To do so is to make a new departure in legislation, so far as this subject is concerned, but it is a legitimate adjunct to the protective tariff system, and there is no room for doubt that if put into practice the results would as completely justify it as have the results of the tariff, and the people would see its wisdom. The Republican party has entire control of the executive and legislative branches of the government and should not hesitate to carry the party principles into full dental symptoms due to disordered kideffect.

INSPECTION OF MINES.

Man Killed While Officials Were Visiting Mines.

Columbus, Oct. 14.—Assistant Attorney General Miller has returned from Eastern Ohio, where, with the attorney general and the state inspector of mines, he spent most of the week inspecting the mines of that locality with a view to determining what new legislation for the protection of the lives of the miners will be necessary at the hands of the coming legislature. 🕨 Every class of mines in that section was visited on the trip. Later on other sections of the state will be visited by these gentlemen for the same purpose. The officials donned suits of blue overalls and went into the mines prepared to take what might come in the work.

In that section of the state the large majority of the fatal mine accidents are due to the fall of roofing material. While the officials were in the Piney Fork mine, in Jefferson county, a miner, Victor Zambone, was killed in that way.

"The custom now in these mines," said Mr. Miller, "is to employ a man to put in posts to support the roof of the galleries as they are pushed forward. It is left with him as to how far apart these posts shall be placed. If one had been placed in the room where Zambone was working the day we were there, he would be alive today.'

It is probable that the new legislation will provide that all mines in the localities where the roofing material is weak shall have a roof boss who shall be held responsible for keeping safe roofs by placing posts wherever there is the slightest danger of a fall.

Another source of danger in the mines in that section of the state is mine gas. At Amsterdam the officials went into the deepest shaft of the stratum-nearly three hundred feet straight down. There the mine gas is bad. The rule now is that each morning the mine is inspected for gas beis the last attention paid to the matter lon Tigers Saturday afternoon, Nor- Riley tore off a twenty-five yard end for the day. The Norwalk timekeeper at the expiration of the forty-five seconds claimed that the time was up and so notified the referee. As a matter of fact, he was told that there remained forty five seconds to play after the center had passed the ball to the quarterback, and not after the referee blew his whistle. The mistake was nigde by the Norwalk timekeeper, who was not informed on the rules.

The game was not up to expectations of the coach, captain and manager, to say nothing of the fans who had bet on dust. There were those on the Norwalk team who opined that Toledo would defeat the Tigers. As a result it is needless to say that there will be a t ce this week. West's Elevens

Football Outlook at Universities of Michigan, Chicago, Minnesota and Wisconsin --- Yost's Rivals Think They Have a Chance This Year.

The football season of the middle west is now in full swing, and the indications are that the gridiron struggles will be more closely fought than last year. For some reason there is not the usual confidence in the ability of Coach Yost to turn out a winning eleven at Michigan, and the other

ECKERSALL, THE GREAT CHICAGO QUARTER-

coaches throughout the middle west all feel that they have a chance to take the championship honors this fall. In addition to Michigan and Minnesota, the rival claimants for the championship of 1904, Chicago looms up as an important factor, and Nebraska, which played the crack Minnesota team a 12 to 16 game last fall, will undoubtedly come to the front again this season.

The new rule adopted by the colleges in the conference league hits some of the institutions extremely hard, and there will have to be some lively hustling to fill the vacancies with men who have been in the university six months. It is the first trial that has been given to the rule which provides that a man must be in residence at the university six months before he can play on the eleven.

The veterans who, have returned to Michigan are J. S. Curtis and Walter Graham, tackles: H. F. Schulte, guard; Hammond, Clark, Weeks and Stuart, ends; Captain Norcross, quarterback; T. Hammond, halfback, and F. Longman, fullback.

The most serious losses that the University of Minnesota team will face are those of Strathern and Thorpe. These men were strong players, and it will be a difficult task for Coach Williams to fill their places with anywhere near as good material.

The prospects at the University of Wisconsin are not considered any too encouraging by those in a position to judge. Many of the veterans will not be available, and as the conference rule bars those who have not been in residence at the college six months the vacant places will have to be filled by the substitutes of last season.

HENRY IRVING DEAD

Great English Actor Expires at Hotel After Playing at Bradford, Eng.

EVENT IS WHOLLY UNEXPECTED

Seized Wish an Attack of Syncope, Famous Actor Passes Away Within Few Moments-Died in Harness, Working for Drama's Elevation.

London, Oct. 14.-Sir Henry Irving died suddenly at Bradford last night. The death of the distinguished actor was totally unexpected. He was engaged in a tour of the provinces, appearing nightly, and a few days ago spoke at a public meeting in advocacy of the movement for a municipal theater.

Sir Henry played as usual last night at Bradford and returned from the theater to his hotel, where he was seized with an attack of syncope, dying at 11:30 c'clock.

SIR HENRY IRVING.

Irving's last appearance was as "Becket" in the Lord Tennyson's play of that name. The Associated Press last night received the following from Sir Henry's manager, Bram Stoker: "Very terribe news. Sir Henry Irving had an attack of syncope after

Wednesday he was entertained at luncheon in the Bradford town hall, at which the mayor presented him an address from his admirers. 'In replying to the address, Sir

Henry spoke of himself as one the sands of whose life were fast running out, but no one then present had the slightest idea that the end would come so soon. He proceeded to eloquently advocate the establishment of theat feud between the Osteens and Carters by municipalities "because," he said. "I believe that by this means the standard of the true drama, as distinguished from misce laneous entertainments, would be successfully

"Money is spent like water for all kinds of philanthropic and educational objects," he continued, "but who among you ever dreams of endowing the theater. I am sure the time will me when you will regard the theater as necessary to a liberal education and be prepared to consider any reasonable suggestions for the extension of its legitimate influence. It may be that in years to come our countrymen will scarcely understand how in our times so potent an instrument of good or ill as the stage was left entirely outside the sphere of public administration."

Sir Henry's last appearances in London were made last summer, following his serious illness, when the enthusiasm at the nightly receptions accorded him in the historic Drury Lane theater will long be remembered. Since then he has been engaged in touring the provinces and contemplated another visit to the United States.

ULTIMATUM READY.

France Prepared to Take Forcible Action Against Venezuela.

Washington, Oct. 14. - American grievances against Venezuela may be settled by diplomacy, whi e France, in the absence of any diplomatic relaflons at Caracas, may yet be compelled to resort to a show of force. The French ultimatum has been practically ready to dispatch for a week or more and France has the full assent of the Washington government to adopt an effective course of action against Venezuela to obtain the renewal of the dip omatic relations and the restoration of French property seized by the Caracas government. The French ultimatum will be held up until further conferences between the French embassy here and the state department.

Public patience in France is rapidly becoming exhausted over the delay of the government in proceeding against Venezuela and this necessarily acts as a spur in the conferences between Paris and Washington.

BRINGING THUGS IN.

Thieves imported into Gotham for Political Purposes.

New York, Oct. 14.—That gangs of thieves have been imported to New Six Given Up for Lost in Burn-York to register for the fall elections on the lower East Side was the statement made to the police by a prisoner who was arrested after a series of bold assaults and robberies had been committed in the streets.

The prisoner to'd the police that "all the cops in New York" could not prosecute him, because he had come to town only to register and intended to leave again immediately. He refused to give his real name. The police make the charge that the thugs have registered falsely and believe they have political license to rob and plunder. One of the gangs was pursued for an hour by the police who traced it in the vicinity of East Houston street by the noise of breaking windows, by evidences of freshly committed robberies and finally by finding a woman beaten into helplessness on the sidewalk. She was so seriously injured that she was sent to the hospital. She said the gang robbed her of \$5. A few blocks from where the woman was found the police discovered the robbers at work looting fan house following the breaking out a butcher shop. TWO KILLED IN FEUD.

Father Wounded and Two Sons Perish in Row After a Dance.

St. Augustine, Fla., Oct. 14.—George and Edward Carter were killed and several others were injured at Moultrie after a dance as a result of a ters. The feud began several weeks ago with a fist fight between members of the two families.

Witnesses say that George Carter approached Allen Osteen and told him he would have to fight. Blows were exchanged. Then a pistol shot was fired and George Carter staggered and fell dead. A second shot killed Edward Carter.

After the shooting it was found that a number of men were hurt. Riley Carter, the father of the men, received an ug y scalp wound from a club. Alover his body and John Osteen was cut in the head. Four of the Osteens have been arrested and are held without hail. A fifth has not been found.

RAILROADS ROTTEN TOO?

Judge Knapp Suggests Probability in Lecture at Cornell

Ithaca, N. Y., Oct. 14.-Judge Martin A. Knapp, chairman of the interstate commerce commission, delivered a lecture on the subject of "Govern ment Regulation of Railroad Rates" before undergraduates of Cornel university, in the course of which he suggested the possibility that a condition of affairs might exist in the railroads similar to that revealed in the investigation of the life insurance companies. He said:

"The inquiries that are now in progress in regard to life insurance companies and attempts which have been made to 'pry off the lid' in these matters give us only an inkling of what the full extent of graft may be.

"In looking over the names of men who are connected with the insurance scandals one thing alarms me. These men are the same as those who control many of the great railroad interests of the country. Is there not a possibility that we will find the same rottenness and graft at the bottom of the railroad system?"

SPECIFIC CHARGES MADE.

Government Traces III-Gotten Gains of Cotton Leak Participants.

New York, Oct. 14.-The profits of the alleged conspirators in the opera tions based on the recent leak in the government cotton reports are placed at approximately \$200,000, according to an indictment presented in court on the arraignment before United States Judge Ridgway of Frederick A. Peckham and Moses Haas. Ac cording to charges made in this in dictment Edwin S. Holmes, Jr., associate statistician of the department of agriculture, received \$25,017.

The indictment, which was found by a grand jury in Washington on Oct. 3, is against Edwin S. Holmes. Jr., and L. C. Van Riper, as well as against Haas and Peckham, and charges al four collectively with bay ing conspired to defraud by procuring advance information from Holmes concorning the government's cotton crop report. It sets forth in full many copies of telegrams and also of checks which passed between the accused, tending to show that a conspiracy existed.

One of the checks, date 1 Dec. 12. 1964, drawn on the Second National bank of Hoboken and signed by Lowis C. Van Riper calls for the payment of \$24,250 to M. Haas, of which sum it is alleged Hans paid Holmes \$11-250 in cas't. Many other minor checks ranging from \$100 to \$500 are set forth in the indictment, in aldition to another check signed by Van Riper and pavable to Haas on the saile bank for \$38,292, dated Dec. 31. 19.4. Of this sum it is claimed Ho mes εστ \$10,767.

Counsel for the defense moved for the discharge of the prisoners on the ground that the charges as alleged did not constitute an offense against the government. The hearing on the motion was a bjourned until Oct. 21.

General Manager A. E. Foster, of the Massillon district of the Central Union Teicphone Company, left Saturday afternoon for Toledo, where he will embark on the Clover Leaf railroad train for Dallas, Tex., for a two weeks' visit with his uncle, G. W. Foster, general manager of the Central Union Telephone Company's system in Texas and Arkansas.

S. A. Conrad sat before the fire at his residence in East Main street calmly conversing with a neighbor, Friday evening, when the door opened suddenly and about thirty friends walked in. When Mr. Conrad had recovered from his surprise he realized that it was the forty-third anniversary of his wedding and that Mrs. Conrad had planned this gathering of old friends and neighbors as a celebration thereof. A general good time followed. The guests drew packages by number, exchanged them and displayed the contents of each amidst general hilarity. Progressive euchre was played afterwards, refreshments being served on the card tables.

the method of making tea. He dwells ' on the much discussed question of the choice of water and the degree of boiling it. According to him, the mountain spring is the best; the river water and the spring water come next in the order of excellence. There are three stages of boiling. The first boil Is when the little bubbles like the eyes of fishes swim on the surface. The second boil is when the bubbles are. like crystal beads rolling in a fountain. The third boil is when the billows surge wildly in the kettle. The cake tea is roasted before the fire until it prime, \$5.40@5.50. becomes soft like a baby's arm and is shredded into powder between pieces of fine paper. Salt is put in the first boil, the tea in the second. At the third boil a dipperful of cold water is poured into the kettle to settle the tea and revive the "youth of the water." Then the beverage was poured into cups and drunk. Oh, nectar! The filmy leaflet hung like scaly clouds in a serene sky or floated like water lilles

DUN'S REVIEW OF TFADE.

Summary of Business Conditions Throughout the Country.

weekly review of trade this morning says: Recent mild weather might have been expected to retard business, but freight blockades and several similar conditions testify to the contrary and the last half of the week brought seasonable fall in temperature. Higher rates for money tend to prevent excesses in Wall street, yet there is no difficulty in securing funds for mercantile undertakings. At some cities fall trade has become more quiet, first necessities being covered. but supplementary orders are confidently awaited, especially in dry goods, of which stocks are not burdensome at any point.

is noted, and this element promises to supply unprecedented business this year. Manufacturers are so fully occupied that contracts for early delivery can't be considered in most cases, and the amount of business that will be carried over into 1906 will certainly eclipse all records. These sanguine prospects are confidently announced in several of the leading industries, latest news from the iron furnaces and steel mills being notably gratifying.

Crops were not seriously injured by the frost and such a small percentage of the year's yield still remains exposed to danger that agricultural results may be summed up as most favorable. It is to be hoped that large crops wik restore liberal exports which have made very poor comparisons of late, for the last week at this port alone a decrease of \$2,857.145 being noted in comparison with the same week last year, while imports gained \$2,664,185. Railway earnings thus far reported for October gained only 0.2 per cent over last year's movement, but prices of securities were little influenced by the bankers' ad-

FIREMAN SAVES TRAIN.

Engineer Lies Senseless While Many

Chicago, Oct. 14.—In a wild runaway dash an Illinois Central fast mail train, bound south, narrowly escaped wreck and destruction at Grand Crossing. The engineer, Frank A. Rugg, was struck by some projection after passing Sixty-third street and fell unconscious at his post. Tearing through darkness the train approached the network of tracks at Grand Crossing with undiminished speed, contrary to all regulations.

Paul A. Wheeler, the fireman, leaped to Engineer Rugg's bench and found Rugg unconscious and bleeding from a jazzed wound in the head. The fireman brought the train to a stop just ject while he was peering from the cab window. His injuries are not considered fatal.

Cumberland, Md., Oct. 14.—The effies of the Loueconing Star at Lonecoming, Md., was destroyed by fire of supposed incendiary origin. A. K. Wheeler, the bookkeeper, was suffocated, dying shortly after being tallion from the barning building.
